Universal 911 Dialing - Second Transition Report

Please read instructions before completing

**Section 1
Carrier Identification Information**

Parent Company Name

Public Service Communications, Inc. (parent company of Public Service Cellular, Inc.)

Service Provider Name

Public Service Cellular, Inc. / Enterprise Wireless PCS, L.L.C.

Company Address, City, State, Zip

Public Service Cellular, Inc. - 104 Winston Street, Reynolds, Georgia 31076,
Enterprise Wireless PCS, L.L.C. - 6400 Bradley Park Drive, Suite A4, Columbus, Georgia 31904

Service Provider Type ☒ Wireless ☐ Wireline

Name(s) of Wireless License Holder(s)

Public Service Cellular, Inc. / Enterprise Wireless PCS, L.L.C.

Contact Name

Richard Bolt - Director of Engineering Network Operations for Public Service Cellular, Inc., the network operating member of Enterprise Wireless PCS, L.L.C.

Michael K. Kurtis, Esquire, Kurtis & Associates, P.C.

Contact Tel #

Public Service Cellular, Inc. - (478) 847-0230

Kurtis & Associates, P.C. - (202) 328-4500

Fax #

Public Service Cellular, Inc. - (478) 847-4111

Kurtis & Associates, P.C. - (202) 328-1231

E-mail Address

Public Service Cellular, Inc. - richard@pscel.com

Kurtis & Associates, P.C. - mkurtis@kurtispc.com

Section 2

Local Area 911 Implementation

List all individual local areas covered by this report (e.g., Lee County, Virginia):

Calhoun County, Georgia (FIPS Code 13037); Chattahoochee County, Georgia (FIPS Code 13053); Clay County, Georgia (FIPS Code 13061); Crawford County, Georgia (FIPS Code 13079); Dooly County, Georgia (FIPS Code 13093); Irwin County, Georgia (FIPS Code 13155); Macon County, Georgia (FIPS Code 13193); Marion County, Georgia (FIPS Code 13197); Pike County, Georgia (FIPS Code 13231); Quitman County, Georgia (FIPS Code 13239); Randolph County, Georgia (FIPS Code 13243); Schley County, Georgia (FIPS Code 13249); Stewart County, Georgia (FIPS Code 13259); Talbot County, Georgia (FIPS Code 13263); Taylor County, Georgia (FIPS Code 13269); and Webster County, Georgia (FIPS Code 13307)

For each area listed above, identify the emergency response point to which calls are now being routed.

Public Service Cellular, Inc. ("Public Service") provides wireless cellular service and/or Personal Communications Service ("PCS") in the Columbus, GA/ AL MSA; Georgia 6 – Spalding; Alabama 5 – Cleburne; Alabama 8 – Lee; Georgia 5 – Haralson; and Georgia 9 – Marion RSAs; and the Anderson, SC; Anniston, AL; and Columbus, GA BTAs. Where Public Service's cellular wireless facilities provide a signal to the counties identified by the FCC as subject matter for this report, Public Service so notes. In addition, some of the counties identified by the FCC as subject matter for this report are part of the Columbus, Georgia BTA (BTA 092). Although Public Service's PCS coverage does not extend into all of the subject counties in that BTA, Public Service has identified the subject counties it does cover, as noted below.

Enterprise Wireless PCS, L.L.C ("Enterprise") provides broadband PCS in the B115 – Dothan, AL; B334 – Opelika, AL; B006 – Albany-Tifton, GA; and B237 – LaGrange, GA BTAs. Although Enterprise's coverage for PCS does not extend into all counties that are part of the Albany-Tifton, Georgia BTA, some of the counties in that BTA have been identified by the FCC as subject matter for this report. It is for this reason that Enterprise files this instant report.

Calhoun County, Georgia -

Calhoun County is not part of **Public Service's** wireless service area for either cellular or PCS. Calhoun County is part of the Albany-Tifton, Georgia BTA (BTA B006), one of the BTAs in which **Enterprise** provides PCS. Enterprise's PCS coverage in the BTA does not extend into Calhoun County, Georgia.

Chattahoochee County, Georgia -

Public Service has cellular and PCS service within Chattahoochee County from four wireless facilities. The Cusseta site (located in this county) is the predominate server for cellular service, but cellular coverage is also produced from the Ft. Benning COW (located in this county) and the South Columbus site (located in Muscogee County, Georgia). In addition, Public Service's tower (14th Street) in the Columbus, Georgia BTA (BTA 092) provides PCS coverage in Chattahoochee County. Basic 911 calls from all four of these wireless facilities are routed to Columbus 911, the PSAP for Chattahoochee County, Georgia. Chattahoochee County is not part of **Enterprise's** PCS service area.

Clay County, Georgia -

Public Service is not licensed to serve Clay County, Georgia, and does not have any PCS or cellular facilities located in Clay County. Public Service, however, reports on Clay County because as part of its Extension Agreement with Alltel Communications, Inc., limited portions of Public Service's 32 dbu service contour extends from its Sanford (Lumpkin) site in Stewart County, Georgia into Clay County. Due to the terrain and the geographic distance from the Sanford (Lumpkin) site to the Clay County borders, Public Service does not provide any actual cellular coverage in the county. However, in the unlikely event that a connection for a 911 call placed near the county boundary from a mobile in Clay County was to set up on Public Service's Sanford (Lumpkin) tower, that 911 call would be routed to the Georgia State Patrol - Americus, which would then forward the call to the Clay County Sheriff's Office. Clay County is not part of Public Service's PCS service area. Clay County is part of the Albany-Tifton, Georgia BTA (BTA B006), one of the BTAs in which **Enterprise** provides PCS. Enterprise's PCS coverage in this BTA does not extend into Clay County, Georgia.

Crawford County, Georgia -

Public Service has cellular service within Crawford County from five cell sites. The Roberta site (located in this county) is the predominate server for cellular service, but cellular coverage is also produced from the Thomaston, Downtown Thomaston, Butler, and Reynolds sites in neighboring counties. Emergency calls captured by the Roberta, Thomaston, and Downtown Thomaston sites are routed to the Thomaston 911 call center in Upson County, which then forwards calls to the Crawford County Sheriff's Office. Emergency calls captured by the Butler and Reynolds cell sites are routed to the Georgia State Patrol Office – Thomaston, which then forwards calls to the Crawford County Sheriff's Office. Crawford County is not part of Public Service's PCS service area. The county is also not part of **Enterprise's** PCS service area.

Dooly County, Georgia -

Public Service has cellular service within Dooly County from three cell sites. The Vienna (Findlay) site (located in this county) is the predominate server for cellular service, but cellular coverage is also produced from the Americus and Oglethorpe sites in neighboring counties. Basic 911 emergency calls captured by the Vienna and Oglethorpe sites are routed to the Georgia State Patrol - Americus, which then forwards calls to the Dooly County Sheriff's Office. Basic 911 calls captured by the Americus site are routed to the Americus Police Department, in Sumter County, which then forwards calls to the Dooly County Sheriff's Office. Dooly County is not part of Public Service's PCS service area. The county is also not part of **Enterprise's** PCS service area.

Irwin County, Georgia -

Irwin County is not part of **Public Service's** cellular or PCS service area. Irwin County is part of the Albany-Tifton, Georgia BTA (BTA B006), one of the BTAs in which **Enterprise** provides PCS. Enterprise's PCS coverage in the BTA does not extend into Irwin County, Georgia.

Macon County, Georgia -

Public Service has cellular service in Macon County from five cell sites. The Oglethorpe site (located in this county) is the predominate server for cellular service, but cellular coverage is also produced from the Vienna, Americus, Reynolds, and Butler sites in neighboring counties. Emergency calls captured by the Oglethorpe and Vienna sites are routed to the Georgia State Patrol - Americus, which then forwards calls to the Macon County Sheriff's Office. Emergency calls captured by the Americus cell site are routed to the Americus Police Department, which then forwards calls to the Macon County Sheriff's Office. Basic 911 calls captured by the Reynolds and Butler sites are routed to the Georgia State Patrol – Thomaston, which then forwards calls to the Macon County Sheriff's Office. Macon County is not part of Public Service's PCS service area. The county is also not part of **Enterprise's** PCS service area.

Marion County, Georgia -

Public Service has cellular service in Marion County from six cell sites. The Buena Vista site (located in this county) is the predominate server for cellular service, but cellular coverage is also produced from the Americus, Butler, Geneva, Cusseta, and Preston cell sites in neighboring counties. Emergency calls captured by the Buena Vista and Preston sites are routed to the Georgia State Patrol – Americus, which then forwards calls to the Marion County Sheriff's Office. Emergency calls captured by the Americus site are routed to the Americus Police Department, which then forwards calls to the Marion County Sheriff's Office. Emergency calls captured by the Butler tower are routed to the Georgia State Patrol – Thomaston, which then forwards the calls to the Marion Sheriff's Office. Emergency calls captured by the Geneva and Cusseta sites are routed to Columbus 911, the PSAP for Chattahoochee County, which then forwards calls to the Marion County Sheriff's Office. Marion County is part of the Columbus, Georgia BTA (BTA 092), one of the BTAs in which Public Service provides PCS. Public Service's PCS coverage in this BTA does not extend into Marion County. Marion County is not part of **Enterprise's** PCS service area.

Pike County, Georgia -

While **Public Service** has no cellular or PCS facilities located in Pike County, cellular coverage exists in parts of the county from the Thomaston, Greenville, and Senoia sites. Emergency calls captured by the Thomaston site are routed to the Thomaston 911 call center in Upson County, which then forwards the calls to the Pike County Sheriff's Department. Calls captured by the Greenville site are routed to the Meriwether County Call Center,

which then forwards calls to the Pike County Sheriff's Office. Calls captured by the Senoia site are routed to the Coweta County Sheriff's Office, which then forwards calls to the Pike County Sheriff's Office. Pike County is not part of Public Service's PCS service area. The county is also not part of **Enterprise's** PCS service area.

Quitman County, Georgia -

While **Public Service** has no cellular or PCS facilities located in Quitman County, cellular coverage exists in part of the county from the Sanford (Lumpkin) site. Emergency calls captured by the Sanford site are routed to the Georgia State Patrol Office – Americus, which then forwards calls to the Quitman County Sheriff's Office. Quitman County is part of the Columbus, Georgia BTA (BTA 092), one of the BTAs in which Public Service provides PCS. Public Service's PCS coverage in this BTA does not extend into Quitman County. Quitman County is not part of **Enterprise's** PCS service area.

Randolph County, Georgia -

While **Public Service** has no cellular or PCS facilities located in Randolph County, cellular coverage exists in the northern parts of the county from the Sanford (Lumpkin) and Preston sites. Emergency calls captured by either site are routed to the Georgia State Patrol Office – Americus, which then forwards calls to the Randolph County Sheriff's Office. Randolph County is not part of Public Service's PCS service area. Randolph County is part of the Albany-Tifton, Georgia BTA (BTA B006), one of the BTAs in which **Enterprise** provides PCS. Enterprise's PCS coverage in this BTA does not extend into Randolph County, Georgia.

Schley County, Georgia -

While **Public Service** has no cellular or PCS facilities located in Schley County, cellular coverage exists in parts of the county from the Buena Vista, Americus, Preston, and Oglethorpe sites. Emergency calls captured by the Buena Vista, Preston, and Oglethorpe sites all route to the Georgia State Patrol Office - Americus, which then forwards the calls to the Schley County Sheriff's Department. Calls captured by the Americus site are routed to the Americus Police Department, which then forwards calls to the Schley County Sheriff's Office. Schley County is part of the Columbus, Georgia BTA (BTA 092), one of the BTAs in which Public Service provides PCS. Public Service's PCS coverage in this BTA does not extend into Schley County. Schley County is not part of **Enterprise's** PCS service area.

Stewart County, Georgia -

Public Service has cellular service in Stewart County from four cellular sites. The Sanford (Lumpkin) site (located in this county) is the predominate server for cellular service, but cellular coverage is also present in parts of the county from the Cusseta, Preston, and Cottonton sites from neighboring counties. Emergency calls captured by the Sanford (Lumpkin) site are routed to the Georgia State Patrol - Americus, which then forwards calls to the Stewart County Sheriff's Office. Emergency calls captured by the Cusseta site are routed to the Columbus PSAP. Emergency calls captured by the Preston site are routed to the Georgia State Patrol – Americus, which then forwards calls to the Stewart County Sheriff's Office. Emergency calls captured by the Cottonton, Alabama cell site are routed to the Russell County, Alabama Sheriff's Department (one of the two PSAPs in Russell County, Alabama), which then forwards the calls to the Columbus Police Department in Muscogee County, Georgia, which in turn forwards the calls to the Stewart County Sheriff's Office. Stewart County is part of the Columbus, Georgia BTA (BTA 092), one of the BTAs in which Public Service provides PCS. Public Service's PCS coverage in this BTA does not extend into Stewart County. Stewart County is not part of **Enterprise's** PCS service area.

Talbot County, Georgia -

Public Service has cellular service in Talbot County from five cellular sites. The Geneva and Manchester sites (which are located in the county) are the predominate servers for cellular service, but cellular coverage is also present in parts of the county from the Thomaston, Downtown Thomaston, and Waverly Hall sites from neighboring counties. Emergency calls captured by the Geneva site are routed to the Columbus PSAP, the PSAP for Chattahoochee County, which then forwards calls to the Talbot County Sheriff's Office, the PSAP for Talbot County, Georgia. Emergency calls captured by the Manchester site, which is on the Talbot County–Meriwether County line, are routed to the Meriwether County call center, which then forwards calls to the Talbot County Sheriff's Office. Emergency calls captured by the Thomaston and Downtown Thomaston sites are routed to the

Thomaston 911 call center in Upson County, which then forwards the calls to the Talbot County Sheriff's Office. Emergency calls captured by the Waverly Hall site are routed to the Harris County 911 center, which then communicates with the Talbot County Sheriff's Office on behalf of the callers. Talbot County is part of the Columbus, Georgia BTA (BTA 092), one of the BTAs in which Public Service provides PCS. Public Service's PCS coverage in this BTA does not extend into Talbot County. Talbot County is not part of **Enterprise's** PCS service area.

Taylor County, Georgia -

Public Service has cellular service in Taylor County from six cellular sites. The Butler and Reynolds sites (which are located in the county) are the predominate servers for cellular service, but cellular coverage is also produced in parts of the county from the Thomaston, Roberta, Oglethorpe, and Geneva sites in neighboring counties. Emergency calls captured by the Butler and Reynolds sites route to the Taylor County Sheriff's Office. Emergency calls captured by the Thomaston and Roberta sites route to the Thomaston 911 call center in Upson County, which then forwards calls to the Taylor County Sheriff's Office. Emergency calls captured by the Oglethorpe site route to the Georgia State Patrol – Americus, which forwards the calls to the Taylor County Sheriff's Office. Emergency calls captured by the Geneva site route to Columbus 911, which then forwards calls to the Taylor County Sheriff's Office. Taylor County is not part of Public Service's PCS service area. The county is also not part of **Enterprise's** PCS service area.

Webster County, Georgia -

Public Service has cellular service in Webster County from five cellular sites. The Preston site (located in this county) is the predominate server for cellular coverage, but cellular coverage also exists in parts of the county from the Sanford (Lumpkin), Buena Vista, Americus, and Cusseta sites in neighboring counties. Emergency calls captured by the Preston, Sanford, and Buena Vista sites are routed to the Georgia State Patrol – Americus, which then forwards calls to the Webster County Sheriff's Office. Emergency calls captured by the Americus site are routed to the Americus Police Department, which then forwards calls to the Webster County Sheriff's Office. Emergency calls captured by the Cusseta site are routed to the Columbus 911, which then forwards calls to the Webster County Sheriff's Office. Webster County is part of the Columbus, Georgia BTA (BTA 092), one of the BTAs in which Public Service provides PCS. Public Service's PCS coverage in this BTA does not extend into Webster County. Webster County is not part of **Enterprise's** PCS service area.

Section 3**Certification - To be signed by an authorized representative of the reporting entity**

I certify that I am an authorized representative of the above-named reporting entity, that I have examined the foregoing report and to the best of my knowledge, information and belief, all statements of fact contained in this form are true and that the reporting entity has completed the steps necessary to properly route 911 emergency calls in the localities covered by the report as of September 11, 2002.
